# Blueprint for Attainable Housing

## Philadelphia remains the poorest big city in America.

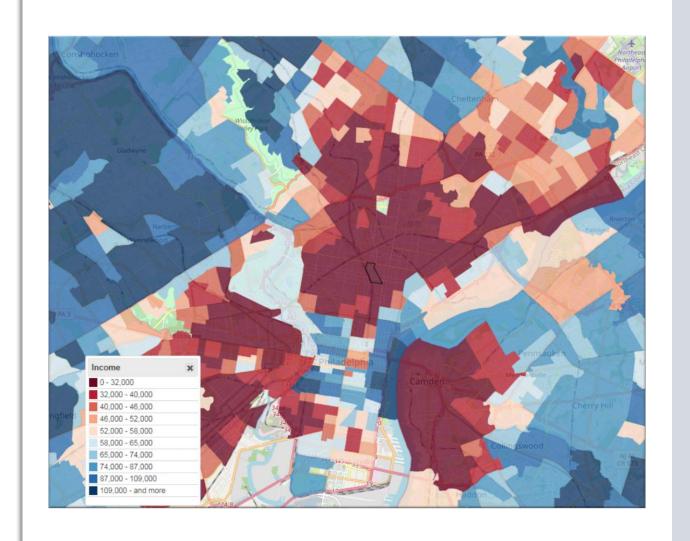

- Highest overall poverty rate among the nation's ten largest cities.
- Nearly a quarter (24.5%) of Philadelphians
   377,116 of us live in poverty.
- Highest percentage of residents living in deep poverty, with 11.1% of us with incomes below 50% of the overall poverty rate.
- Includes a child poverty rate of 34.6% that also ranks highest among the ten largest cities.
- About 529,000 people—40% of the city's households—are cost-burdened.

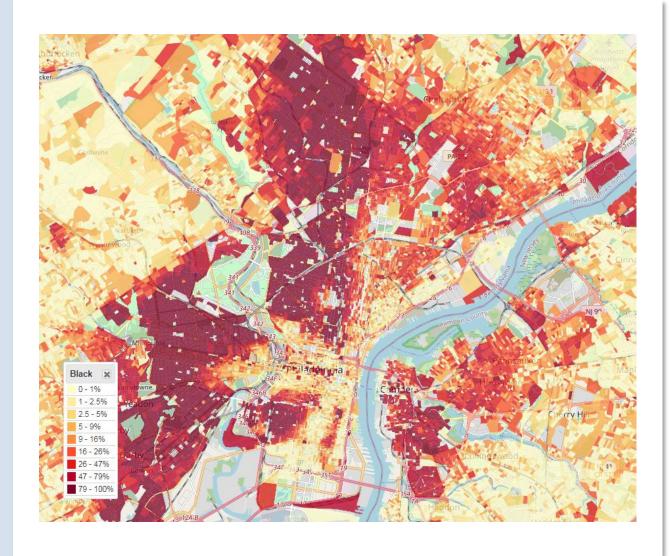

"One major challenge that limits opportunity and increases inequality in America is the incredible segregation of cities."

- -- RAJ CHETTY, WILLIAM A. ACKMAN PROFESSOR OF PUBLIC ECONOMICS AT HARVARD UNIVERSITY.
- Segregated by income with clear concentrations of poverty and wealth.
- From 2000 to 2018, poverty rates
   decreased in 15 zip codes, predominately
   Center City and surrounding areas but
   increased in 31 zip codes –12 areas
   above a 30% poverty rate, including five
   above 40%.

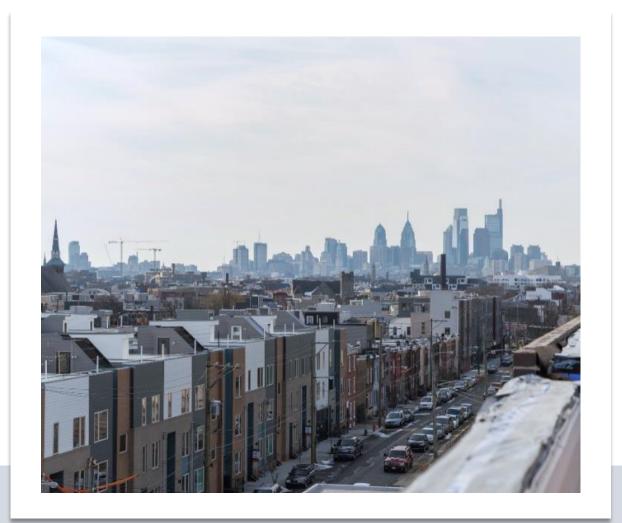

# Philadelphia is ranked the third most segregated city in America.

- Income and race maps align.
- Such disparities erode opportunity for the hundreds of thousands of low and middle-income Philadelphians.
- Trends threaten the trajectory of the city as a whole.
- Economic growth and housing development often exclude those already living in the City's poorer neighborhoods.

# Why is the BIA committed to building more affordable housing?

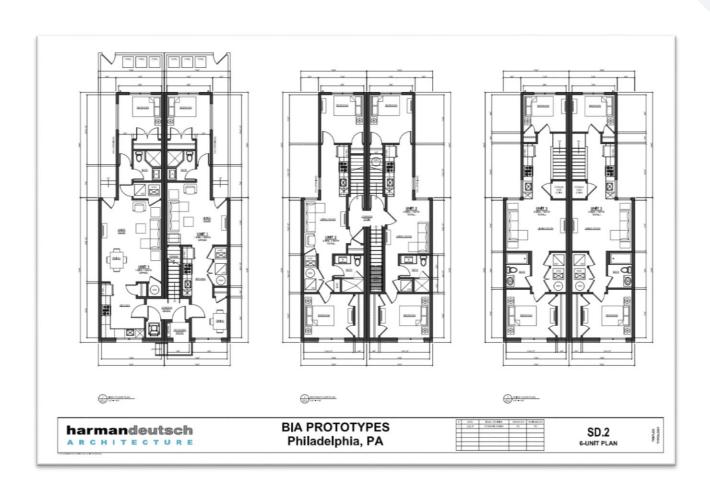

- First and foremost, it's the right thing to do.
- We can leverage the expertise and capability of private sector residential developers to accelerate the delivery of affordable housing.
- Augment City efforts and the long-standing work of CDCs.
- Support more equitable and inclusive growth throughout Philadelphia.

# BIA's Blueprint for Attainable Housing

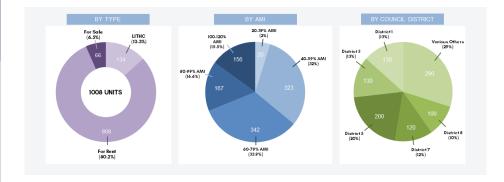

- Proposes a proactive, collaborate approach in partnership with the City, City Council, and community stakeholders.
- Offers scalable models that will allow developers of all sizes to deliver attainable housing for rent and for sale.
- Engages with the designers, suppliers, and other service providers in our membership to reduce development costs.
- Works in tandem with organizational goals for furthering diversity, equity, and inclusion within the BIA and the industry.

### 1000+ Units in 3 Years

- BIA members are on track to deliver more than 1,000 attainable units over the next three years.
- Located in at least 5 councilmanic districts.
- Sixty-five percent of these units will serve households at 40-79% of AMI
- Goal is 6,000 units in 10 years.

# For-Sale Model

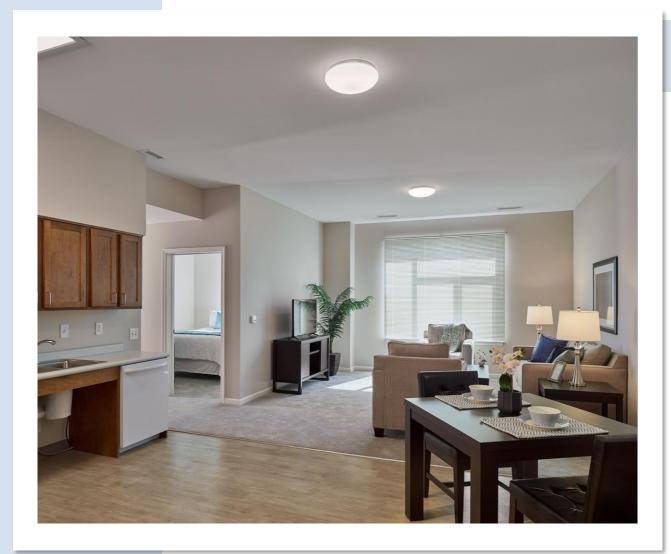

Sample Affordable Home Exterior

Affordable Homes Floorplan

# Features of a For-Sale Affordable Home:

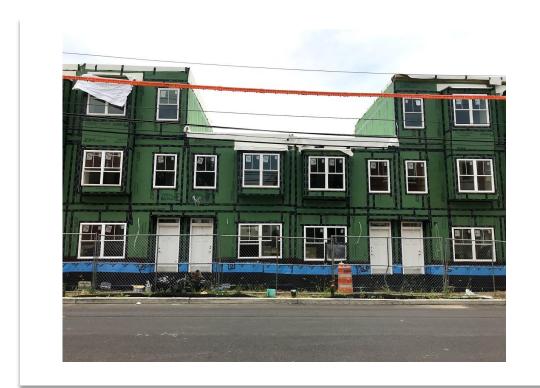

- 2-Story
- 3 Bedrooms (2 above grade, one in basement)
- 2 Bathrooms

## RECENT LEGISLATION: Bill No. 190606-AA03 effective 1/1/2020

## **Non-Competitive Sales**

- A Non-Competitive Sales, as permitted pursuant to the Disposition Policy, is not considered a competitive sale.
- The City may direct the transfer of property or properties to a specific entity without a competitive process for:
  - The development of an assemblage (50% of land)
  - Business expansion
  - Affordable Housing Development or Community based facilities
  - Mixed-Use Developments where 51% of the units are for affordable housing—Both For-Profit & Non-Profit Developers may submit
  - Side/rear yards, Garden/Community Garden Agreement

# Building Support for the *Blueprint*

- Identify decision-makers and influencers.
- Form strategic partnerships/coalitions.
- Advocate for removing legislative barriers to attainable housing:
  - Land disposition
  - Zoning and permitting
  - Infrastructure improvements
  - Funding

## **Next Steps**

- We will invite Builder Members to submit an expression of interest to the committee.
- Associate Members providing integral services and products will be invited to submit packages for use in the development of *Blueprint* units.
- Reach out to City and community partners.
- Advocate to remove barriers to attainable housing and add incentives.
- Support the work of our DEI Committee to increase diversity, equity, and inclusion in housing development through education, partnerships, and mentoring.
